

SAWIS 10

1 PURPOSE

This form is completed for production and stocktaking purposes on all premises where wine are stored or produced. The purpose of this form is to expedite stocktaking by recording beforehand all products that will be on the premises on the day of stocktaking. It is used to compile and verify industry statistics.

2 PARTIES THAT SHOULD COMPLETE THE FORM

Should be completed by all producer cellars, estates, private cellars, producing wholesalers, as well as people who deliver services for others.

3 HOW TO COMPLETE THE FORM

Producer cellars, estates and private producers, as well as institutions that deliver services indicate on the form all the wine on their premises on the specific day of stocktaking. Current vintage products should be indicated separately from other vintage products. Producing wholesalers only indicate products of the current vintage on the SAWIS 10.

The container number, type of wine and vintage, as well as the quantity litres currently in the container are indicated in the drink wine or distilling wine columns respectively. All bottled products, as well as vats are also indicated on the SAWIS 10.

In both above-mentioned cases only the grape juice/concentrate, wine spirits, drinking and distilling wine return section (front) of the form should be completed. The summary section (back) of the form is for official use only.

4 SUBMISSION DATE

This form is not sent to SAWIS, but handed to a SAWIS inspector when stocktaking takes place.
