

## **SAWIS 4**

### **1 PURPOSE**

The SAWIS 4 declares the quantity of brandy and spirits distilled as well as the utilization of these distilled products. It is used to compile industry statistics.

### **2 PARTIES THAT SHOULD COMPLETE THE FORM**

Should only be completed by co-operative cellars, estates and private cellars with distillation facilities available on their own premises and which distil distilling wine, rebate and spirits themselves. Premises that only produce grape juice concentrate are excluded.

### **3 HOW TO COMPLETE THE FORM**

All additions and returns (only products that are already distilled) are indicated on the left side of the form. Removals of products that are already distilled are indicated on the right side of the form. The vintage of products already distilled, gross litre as well as litre AA should be indicated at all times. The opening balance plus all additions/receipts minus removals equal the closing stock. The total at the bottom left must at all times be equal to the total at the bottom right. The quantity of brandy under maturation and not included in the closing stock should be indicated separately at the bottom right.

### **4 SUBMISSION DATE**

The form must be submitted to SAWIS on a monthly basis before the 15<sup>th</sup> of the following month.
