Global Trends - Wine Industry Key Elements

It’s not fair’ – Trump repeats French wine tariffs complaint

US president Trump has again raised the prospect of higher import tariffs on wines from the European Union, singling out an issue with French wine, in particular.

VinIntell

VinIntell May 2019 Issue 40 - BLOCKCHAIN

In the previous edition of VinIntell the focus was on providing an overview of blockchain technology. Blockchain is a Distributed Ledger Technology (DLT) and it underpins Bitcoin and other digital currencies like Litecoin and Ethereum. However its applications reach (and potentially reach) far beyond cryptocurrency. This edition will look further into Blockchain and specifically at how it is being used providing real-world examples. Some legal aspects will also be highlighted.

Contents

BLOCKCHAIN@WORK
Authentication and Digital Assurance
Compliance, Traceability and Certification in Agriculture
THE LEGALITIES
