SA is at high risk for harmful online behaviour

South Africans are among the most at risk for exposure to negative behaviour online according to Microsoft's 2019 Digital Civility Index (DCI). The annual study examines the online behaviour of internet users in 22 countries and it gauges the attitudes and perceptions of teens between 13 and 17 and adults between 18 and 74, about the state of digital civility today and also measures people's safety online and exposure to risks such as cyberbullying, unwanted contact and harassment as well as exposure to hoaxes and scams.

This year South Africa ranked 21st out of 22 countries surveyed for exposure to online risks. Click here to read more
