12.3	PER CAPITA CONSUMPTION	32

1 DEFINITIONS

The **wine industry** in South African context is much wider than signified by the ordinary meaning of the word “wine”. Brandy and its building blocks (wine for brandy and distilling wine) have always formed a significant part of South Africa’s wine industry. In recent years grape juice and grape juice concentrate for use in non-alcoholic beverages, and not just for the sweetening of wine, are also part thereof. The South African wine industry thus encompasses wine (still, fortified and sparkling), wine for brandy, distilling wine, brandy and other spirits distilled from distilling wine, and grape juice and grape juice concentrate for use in wine and non-alcoholic products.

Unless otherwise indicated, the following definitions apply in this publication:

Wine includes all the products below.

> **Still wine** is non-fortified and non-sparkling wine, including perlé wine which is wine carbonated to the extent that the pressure in the container in which it is sold is between 75 and 300 kPa. It also includes any grape juice or must and grape juice or must concentrate used in the sweetening of such still wine.
>
> **Fortified wine** is non-sparkling wine which has been fortified with wine spirit. It
>
> **Sparkling wine** is wine carbonated (either by fermentation or by impregnation with carbon dioxide) to the extent that the pressure in the container in which it is sold is more than 300 kPa. It includes any grape juice or must and grape juice or must concentrate used in the sweetening of such sparkling wine.

Wine for brandy is wine specially prepared for double distillation in a pot still and then, as distillate, matured for a period of at least three years in oak casks with a capacity of not more than 340 litres.

Distilling wine is wine specially prepared for distillation to spirits intended for use in brandy or other spirits, for fortification of wine or for industrial purposes.

Grape juice concentrate and grape juice refers to unfermented, undiluted or concentrated juice from grapes destined for use in non-alcoholic products such as fruit juices.

A **producer cellar** is a role player/entity where grapes are received and processed on behalf of a group of wine grape producers, its members, into wine grape products and the marketing thereof as packaged or bulk.

A **private wine cellar** is a role player/entity belonging to an individual or group where grapes are received and processed into wine grape products and the marketing thereof as packaged or bulk.

A **producing wholesaler** is a role player/entity that buys wine in bulk and packaged format from wineries and / or other retailers, but also buys grapes for own production. (Such an entity does not necessarily have its own premises)

A **wholesaler is** a role player/entity that mainly buys wine in bulk, for reselling purposes, whether in bulk or packaged format.

A **wine producer** is a role player/entity that processes grapes, whether his own or purchased (i.e. does not own his own farm), on his own premises. If a role player process grapes on another role player's premises, separate registration is not required. This is in line with SARS legislation.

A **wine estate** is the same as a wine producer, with the difference that his own farm must be demarcated as an estate. The cellar and the farm must form a unit. Demarcation is done by the Wine and Spirits Board.

2 EXTENT OF THE SOUTH AFRICAN WINE INDUSTRY

2.1 EXTENT OF THE TOTAL WINE INDUSTRY

6.5 CERTIFIED WINE

Wines of Origin are made under strict control, from the harvesting of the grapes to the final product, in order to comply with the requirements of the Wine of Origin Scheme with respect to origin, variety and vintage.

The certification seal on the bottle confirms that at the time of its assessment by the Wine and Spirit Board, the wine conformed to the prescribed standards and confirms claims with regard to origin, variety and vintage as indicated on the label.

Included in these figures are the sales of locally bottled imported still wine, as well as the sales of de-alcoholized and low alcohol wine.

Above total differs from the domestic sales figure for still wine in Table 10.1 because not all roleplayers within the industry participates.

* The composition of this category was revisited in 2020

Included in these figures are the sales of locally bottled imported still wine, as well as the sales of de-alcoholized and low alcohol wine.
Above total differs from the domestic sales figure for still wine, sparkling and fortified in Table 10.1 because not all roleplayers within the industry participates.

Figures based on various industry sources (SAWIS, IWSR & SALBA)

Notes: Still wine excludes the grape-based liquor and alcoholic fruit beverage component.

Wine categories are for RSA (around 94%) & Southern Africa Customs Union countries (Botswana, Lesotho, Namibia and Eswatini).

Wine categories only include imported products (mostly bottled) from 2019 onwards.

All other product categories include imported products.

Ready to drink (RTD) refers to both Alcoholic Fruit Beverages and Spirit Coolers, including cider.

Figures based on various industry sources

Notes: 2017 -prices per litre

High priced wine is classified as all wine selling at prices above R35 (per 750ml)

Medium priced wine is classified as wines selling in the R22 to R35 (per 750ml) price range and most of the boxes.

5L boxes selling for less than R125 are classified as standard price.
